EIRCODE

Eircode Finder Shortcut

Having a shortcut for the Eircode Finder saved to your mobile device's homescreen will allow you to quickly access the Eircode Finder to search for an Eircode, an address or get directions to the location of an Eircode. The steps in this document will outline how to create a shortcut on both an iOS device and an Android device.

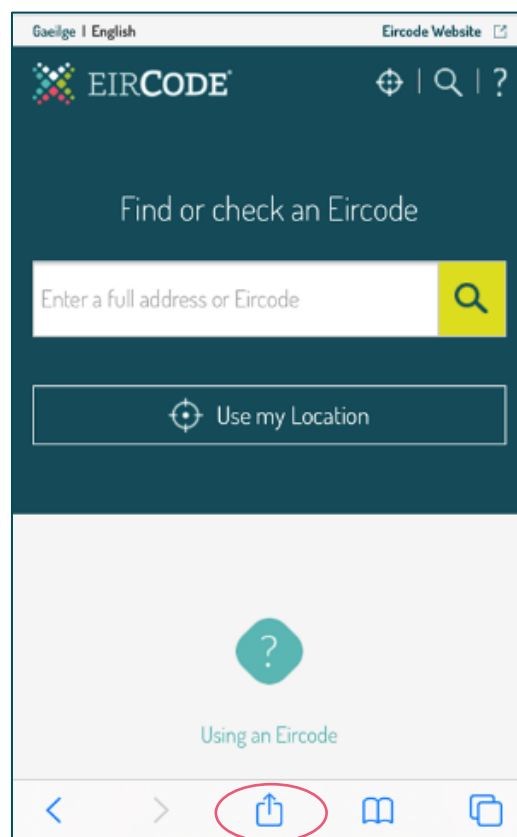

How to save the Eircode Finder shortcut to a smart phone

Please note that some steps / results may vary slightly between devices and platforms.

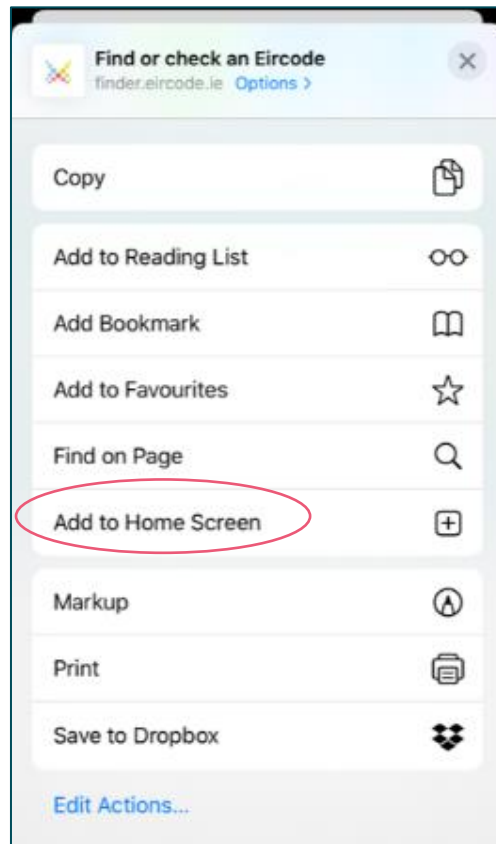

1.1 On iOS device

Step 1: Visit the Eircode Finder at <https://finder.eircode.ie> on your mobile web browser.

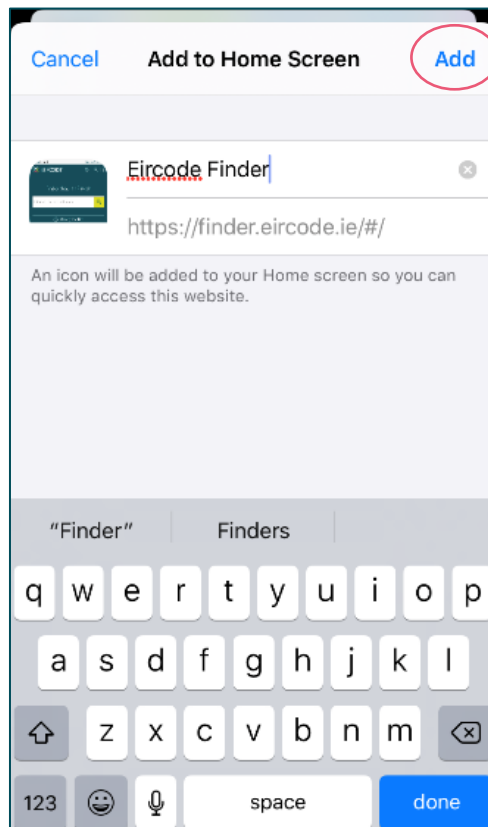

Step 2: Tap the  icon on your device.

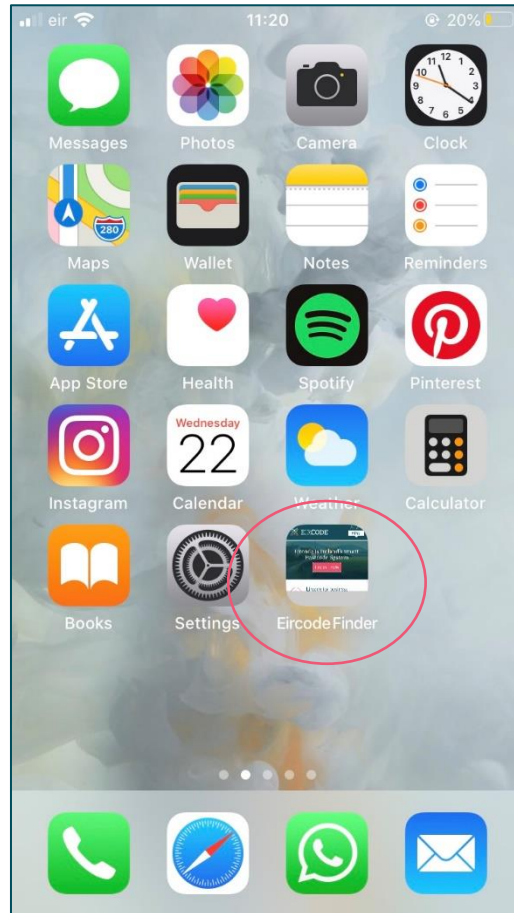

Step 3: Tap “Add to Home Screen”

Step 4: Tap “Add”

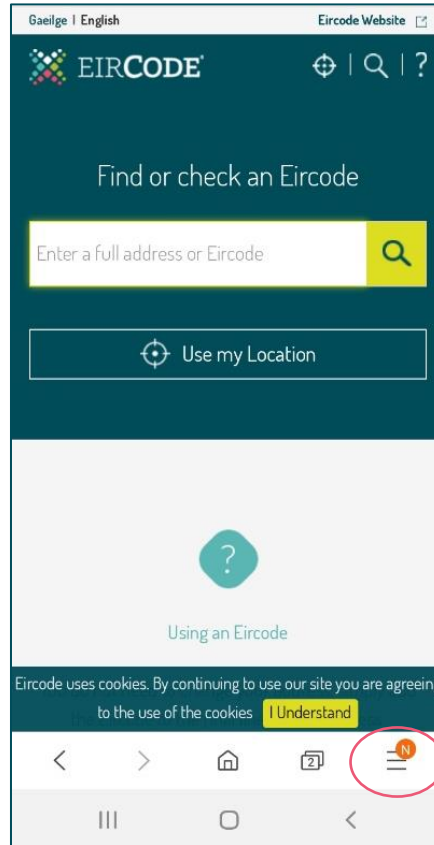

Step 5: An icon will now be added to your homescreen to allow you to access the Eircode finder with one click

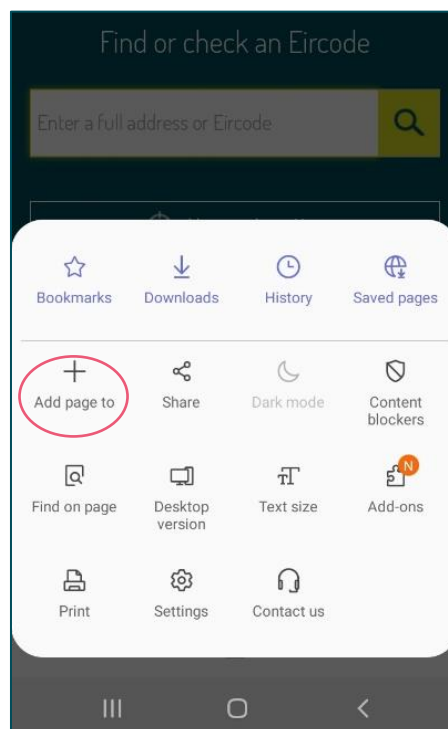

Please **note** where a user has multiple screens with badges the icon may appear on the final page. It can be moved to a location of the users choosing.

1.2 On Android

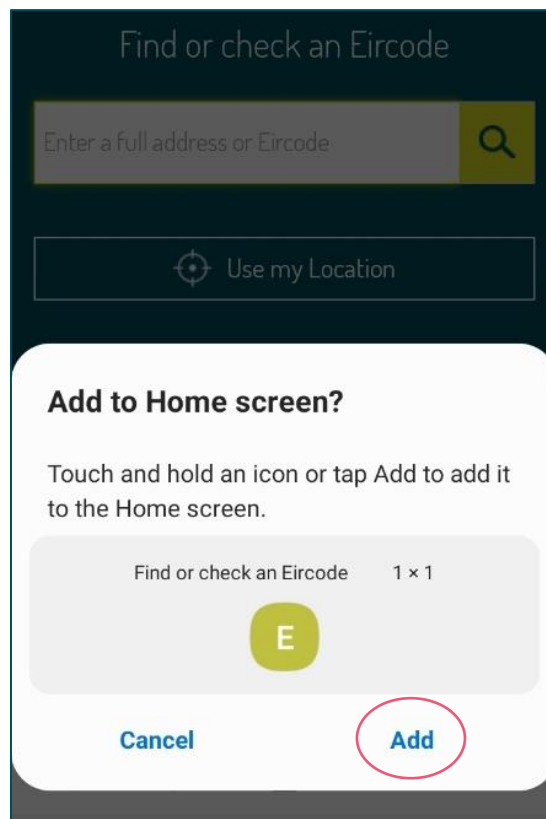

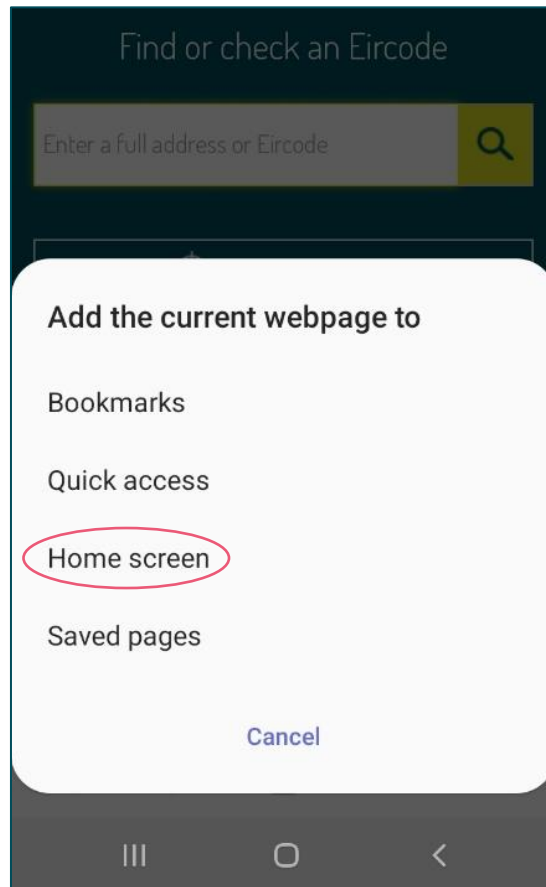

Step 1: Visit the Eircode Finder at <https://finder.eircode.ie> on your mobile web browser. Navigate to the options menu on your device.

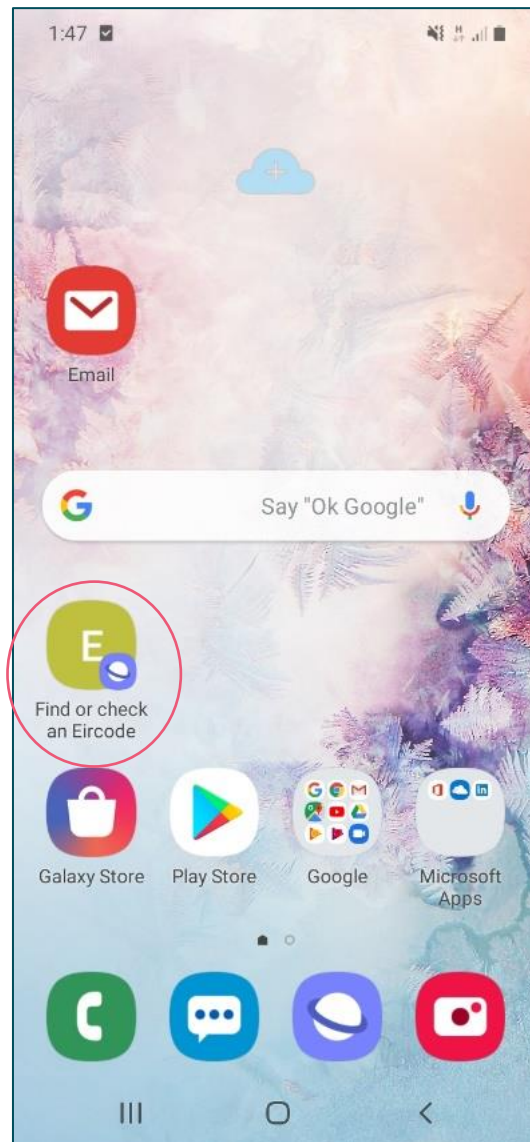

Step 2: Tap the 'Add Page to' option

Step 3: Select to add it to the 'Home Screen' and select 'Add'.

Step 4: An icon will now be added to your homescreen to allow you to access the Eircode finder with one click.

Please note where a user has multiple screens with badges the icon may appear on the final page. It can be moved to a location of the users choosing.
